17 ELEMENTS & PRINCIPLES ACTIVITIES

BALANCE

PRINCIPLES OF DESIGN

BALANCE is the way elements in a work of art are arranged so all parts work well together.

VISUAL WEIGHT

Elements in a work of art have VISUAL WEIGHT, how much attention it grabs from the viewer. Larger elements will grab your attention first. Smaller elements grab your attention next, creating balance.

COLOR

ELEMENTS OF ART
COLOR is an ELEMENT OF ART. COLOR has three main characteristics: HUE, VALUE, and INTENSITY.

CONTRAST

PRINCIPLES OF DESIGN

CONTRAST is putting elements together that are opposite from each other. CONTRAST helps create interest and excitement in a work of art. CONTRAST can help create a focal point in a work of art.

EXAMPLES OF CONTRAST

Use COLOR to create CONTRAST in a work of art. Complementary colors have strong CONTRAST. Try putting them next to each other.

MOVEMENT

PRINCIPLES OF DESIGN

MOVEMENT is a sense of MOVEMENT in art by using the elements of art line, shape, and color. Create a sense of MOVEMENT through the principle of design, repetition. MOVEMENT can create fun, exciting works of art.

EXAMPLES OF MOVEMENT

DIAGONAL LINES or SLANTING LINES

FORM

ELEMENTS OF ART

FORM is a three-dimensional sculpture or objects in a flat work of art that appear three-dimensional. Look at how the SHAPES are turned into FORMS using lines, shapes, and value.

SHAPES TO FORMS

PROPORTION & SCALE

PROPORTION is the size of parts compared to a whole. For example, FACIAL PROPORTION: 1. The eyes generally fall in the center of the face and there is an eye width between the eyes. 2. The nose falls halfway between the eyes and the chin. The mouth falls halfway between the eyes and the chin.

SCALE is the size of an object compared to another object. For example, based on the size of a human, you can roughly tell the size of the tree, which gives you information about the size of the building.

REPETITION

PRINCIPLES OF DESIGN

REPETITION is taking part of a work of art and copying it over and over again. REPETITION can create PATTERNS and UNITY. Create REPETITION by repeating elements of art such as line, shape, and colour.

EXAMPLES OF REPETITION

UNITY

PRINCIPLES OF DESIGN

UNITY makes different parts of a work of art feel like they belong together. UNITY can be created by repeating similar lines, shapes, colors, and textures. Similar elements will visually group objects together and create UNITY.

EXAMPLES OF UNITY

VALUE

ELEMENTS OF ART

VALUE is the lightness or darkness of a colour.

VALUE SCALE: Shows a range from light to dark.

SPACE

ELEMENTS OF ART

SPACE shows depth in space through SIZE, OVERLAPPING, & PLACEMENT.

LINE

ELEMENTS OF ART

LINE is an ELEMENT OF ART. LINE is a mark that connects two points.

ELEMENTS OF ART

COLOR

COLOR is an ELEMENT OF ART.
COLOR has three main characteristics: HUE, VALUE, and INTENSITY.

PRIMARY COLORS are created by mixing two PRIMARY COLORS together. PRIMARY COLORS can't be made by mixing other colors. PRIMARY COLORS include RED, YELLOW, and BLUE. SECONDARY COLORS are created by mixing two PRIMARY COLORS together.

HUE
HUE is a color in its pure form.

SHADE
A SHADE of a color is created when you add black to it.

VALUE
VALUE is how light or dark a color is.

INTENSITY
INTENSITY is how vibrant or bright a color is.

TINT
A TINT of a color is created when you add white to it.

ELEMENTS OF ART

COLOUR

Colour is an ELEMENT OF ART.
Colour has three main characteristics: HUE, VALUE, and INTENSITY.

ELEMENTS OF ART

COLOR

Use the information on the front to complete the following activities:
1. Fill in your own color wheel. Make sure the correct SECONDARY COLOR is between the two PRIMARY COLORS that are mixed to create it.

SHAPE is an ELEMENT OF ART.
SHAPE is created when lines touch, creating a closed area

Separate lines. **L I N E S** to a **S H A P E**

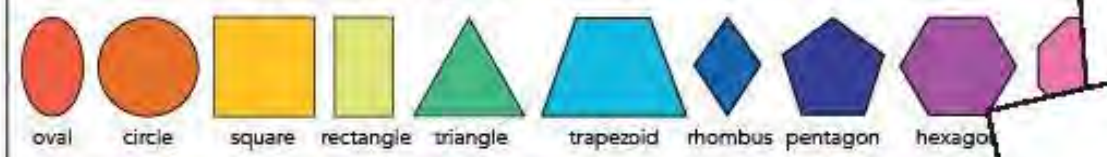

S H A P E S are always two-dimensional or flat.

oval circle square rectangle triangle trapezoid rhombus pentagon hexagon

S H A P E S can be GEOMETRIC or ORGANIC.

GEOMETRIC SHAPES:
Have straight lines, angles, points, and are regular and predictable.

ORGANIC SHAPES:
Are free flowing, curving, and look like they could be found in nature.

ELEMENTS OF ART

ELEMENTS OF ART

SPACE

SPACE is an ELEMENT OF ART.
SPACE is anything above, below, between, and in elements of a work of art.

Larger object look closer. Smaller objects look farther back.

Objects that cover other objects, or overlap them, will look closer.

Use of SPACE in a work of art can make it look like the work of art goes back in space. Using overlapping, size, and placement can create a sense of depth.

POSITIVE SPACE: The main subject of the work of art.

TEXTURE

TEXTURE is the way something feels or looks like it feels.

In sculpture you can touch the art and feel the texture. With two-dimensional or flat artwork artists use lines and shapes to make the art look like it has texture.

ROUGH TEXTURE: Use straight lines and pointy shapes.

SOFT TEXTURE: Use curved lines and round shapes.

HARD TEXTURE: Use straight lines, geometric shapes.

< BALANCE >

PRINCIPLES OF DESIGN

BALANCE is the way elements in a work of art are arranged so all parts work well together.

VISUAL WEIGHT

- Elements in a work of art have VISUAL WEIGHT, or how much attention it grabs from the viewer.
- A big element will grab your attention first. Smaller elements will grab your attention next, creating balance.
- Three small flowers balance with one big flower.

SYMMETRICAL BALANCE (ALSO CALLED FORMAL BALANCE)

The work of art is the same on both sides of the center line.

ASYMMETRICAL BALANCE (ALSO CALLED INFORMAL BALANCE)

The work of art is different on each side of the center line, but the elements BALANCE each other.

Think of the elements like people on a seesaw. One large person is balance by multiple smaller people.

RADIAL BALANCE

Instead of creating BALANCE on a vertical or horizontal line, RADIAL BALANCE is created by placing elements BALANCE from a central point. Elements are evenly placed around the center. Round designs such as snowflakes, mandalas, flowers, and spirals are examples of RADIAL BALANCE.

CREATING PATTERN

To create a PATTERN all you have to do is repeat lines, shapes, and patterns. Start with one simple line. Repeat the line. Add a shape, repeat the shape. Fill it in with color.

REGULAR PATTERN

REGULAR PATTERN is created when shapes, lines, and color repeat in the same way.

PATTERN

ACTIVITY

PRINCIPLES OF DESIGN

EMPHASIS

EMPHASIS helps bring your attention to a part of a work of art.
EMPHASIS can be created through leading lines, adding different color, size, or other elements.
EMPHASIS helps create a focal point in a work of art.

EXAMPLES OF EMPHASIS

LEADING LINES: Have lines pointing to an area to EMPHASIZE it.

COLOR: Place an object with different colors in a group of one color to EMPHASIZE it.

SIZE: Make an object larger than other objects to EMPHASIZE it.

PROPORTION is the size of parts compared to a whole.

SCALE is the size of an object compared to another object.

STANDARD PROPORTION:
objects look realistic.

REALISTIC FACIAL PROPORTION:

1. The eyes generally fall in the center of the face and there is an eye width between the eyes.
2. The nose falls halfway between the eyes and the chin.
3. The mouth falls halfway between the nose and the chin.

ALTERED PROPORTION:
objects don't appear realistic.

MONUMENTAL PROPORTION:
objects are larger than normal.

MINIATURE PROPORTION:
objects are smaller than normal.
